

FINGER LAKES WOODTURNERS

Presents:

Spiraling Into Control

with Jeff Salter

August 20, 2020 @ 7pm

Join artist and tool designer Jeff Salter, as he leads us on a journey of discovery through the world of spiral geometry. During this demo, you will learn concepts and techniques that will help you stretch your imagination and realize new possibilities.

Jeff demonstrates a unique way of creating helical spirals using his Cable Driven Spiral System. He will provide a detailed component-level description of the Cable Driven Spiral System and tips on how you can implement the system on your own lathe.
